Sobering Statistics Concerning Vietnam Vets
As of April 2016

In case you haven't been paying attention these past few decades after you returned from Vietnam, the clock has been ticking. The following are some statistics that are at once depressing yet in a larger sense should give you a huge sense of pride.

"Of the 2,709,918 Americans who served in Vietnam, Less than 850,000 are estimated to be alive today, with the youngest American Vietnam veteran's age approximated to be 60 years old."

So, if you're alive and reading this, how does it feel to be among the last 1/3rd of all the U.S. Vets who served in Vietnam?

I don't know about you guys, but it kinda gives me the chills, Considering this is the kind of information I'm used to reading about WWII and Korean War vets.

So the last 14 years we are dying too fast, only the few will survive by 2025. If true, 390 VN vets die a day. so in 2190 days...from today, lucky to be a Vietnam veteran alive... in only 6-10 years..

*STATISTICS FOR INDIVIDUALS IN UNIFORM AND IN COUNTRY VIETNAM VETERANS: *
9,087,000 military personnel served on active duty during the Vietnam Era (August 5, 1964 - May 7, 1975).

87% of the public now holds Vietnam veterans in high esteem.

INTERESTING CENSUS STATISTICS:

1,713,823 of those who served in Vietnam were still alive as of August, 1995 (census figures).

As of the current Census taken during August, 2000, the surviving U.S. Vietnam Veteran population estimate is: 1,002,511. This is hard
to believe, losing nearly 711,000 between '95 and '00. That's 390 per day.

Isolated atrocities committed by American Soldiers produced torrents of outrage from anti-war critics and the news media while Communist atrocities were so common that they received hardly any media mention at all. The United States sought to minimize and prevent attacks on civilians while North Vietnam made attacks on civilians a centerpiece of its strategy. Americans who deliberately killed civilians received prison sentences while Communists who did so received commendations.

From 1957 to 1973, the National Liberation Front assassinated 36,725 Vietnamese and abducted another 58,499. The death squads focused on leaders at the village level and on anyone who improved the lives of the peasants such as medical personnel, social workers, and school teachers.
